

Mr R Kearney
Tree Works Ref PP - 07121322

We have a large sycamore tree in the back corner of our garden, it's approximately 40 foot in height and 30 foot in width and casts shade over our neighbours bungalow to the rear and both he and I would like to reduce it considerably. We had it pruned back a few years ago but didn't realise how quickly it would grow back so would like to reduce both the height and width.

House, 121 Manor Way
