**Subject:** 41 West Drive, Mr Blumer

Dear Eve and Rosalind,

for your information:

I inspected the tree, a Whitebeam, located in the front of the above garden, nearest the wall and can confirm that the tree is diseased and dead in parts. It is unlikely to recover from the disease having reached a mature age and size. It is not old enough to have been included within the 1958 Area TPO and is outside of the Conservation Area. Therefore Mr Blumer intends to fell this tree and I have no objection to his request.

Yours sincerely

Ian
