Technical Support Unit on extn. 37711
4th July 2017

Dear Paul Beeney

Development:

2 off mature Holm Oak trees located in the rear garden of no. 2 The Spinney. The trees, located within the preservation area, have been inspected by Kevin Wyms, respected Tree Surgeon, who advises both trees are badly diseased, structurally unsafe and have outgrown their proximity to the dwelling. There are signs of disease to the inner core and external signs of fungal growth. Many branches are considered to be structurally unsafe and seriously limit the ability to prune. The recommendation is to fell these trees and replace with one tree of a species more appropriate to the location, e.g. a Himalayan Birch.

Location:

2 The Spinney ALDWICK
