

54, PINEHURST PARK

APPENDIX SEVENTEEN
AUGUST 2025

IMAGE OF POPLAR TREE G9 T2

1. This is an image of tree G9 T2 in August 2025 having been trimmed earlier in 2024
2. Now G9 T1 has been felled, lots of new growth is showing on the left hand side of the tree.
3. The arrow indicates a new poplar tree shoot/sucker on the edge of the lawn/shrub border.
4. You can also make out the right angle in the top fence because the incompetent boundary line goes through the middle of T2
