Dear Silvie,

Re: 1 No. Western Balsam Poplar (T2) to fell. 54 Pinehurst Park

I am writing to fully support the application to fell this Poplar tree in the rear garden of number 54 Pinehurst Park.

I believe this tree causes a safety issue as it could be at risk of collapse due to age. The one in the adjacent garden fell into an open field space very recently and I am extremely concerned about the tree in question falling into the garden and injuring somebody or causing extensive damage to our home.

I am also concerned about tree root suckers which could potentially damage or block drains, or cause other structural damage.

I have been informed that the Association of British Insurers currently recommend a minimum distance of 35 meters between a Lombardy poplar tree and a building due to the potential for structural insurance claims.

For these reasons, I fully support the application to have this tree felled.

Yours sincerely,

Peter Harwood
