Dear Simon,

I was just checking on the material details I have submitted to you and realised that I have only detailed the boarding and hard surfacing in the previous email (below) and that the notes on the drawings are not specific. I therefore propose the following as the full schedule of materials:

Roof – Wienerberger Calderdale Edge in Dark Grey
Fascia – uPVC – white
Rainwater goods – galvanised steel
Walls – through coloured render in white
Wall adjacent to entrance – split faced stacked slate (slate colour)
Windows and doors – uPVC anthracite RAL 7016

I hope this clarifies the materials but let me know if you need more detail.

Regards

Dawn
