Dear Neil

I write in response of the TPO AW/19/20/T at 6 Cedar close to amend the given

1. To reduce the over hang on No1 Oak tree by 2meters leaving 9meters after pruning.
2. To reduce the over hang to No1 Horsechestnut by 7meters to leave 1meter after pruning, there is evidence of weaknesses in this over hang.
3. To reduce the height on No1 Ash by 2meters and leaving 6meters after pruning and to reduce the laterals by 2meters leaving 4meters after pruning.

I hope this gives all the measurements needed.

Kind Regards

Leona Sampson
