

## SURVEY

The tree has not been managed for many years and is getting too big for the area that it is in. Namely the front garden of Easter Cottage. It has been managed in the past for the same reason. I have consulted a tree surgeon who has advised that the correct course of action is to remove 2 meters from the east side (the tree is growing asymmetrically) and about a meter from the top. He also recommends tidying up branches that are too close to the house and a telephone cable on the front property boundary. This tidying is to remove a minimal amount of the tree.
