Dear Mr Bernardez,

The installation of aluminium windows throughout would be more acceptable than uPVC.

Regards

Janice Chapman

Dear Mr Bernardez,

The submitted plans will have to be advertised and all the reps informed. In view of this the application is being advertised until the 30th October 2014 and hopefully will go to the Development Control Committee Meeting on the 19th November 2014. At that stage you will be notified that the application will be going to the Committee and you will be able to speak on your clients behalf.

Regards

Janice Chapman

Janice,

Further to your emails, please find revised drawings attached.

Changes are as follows:-

i. Block plan and site plan corrected with reference to position of neighbouring houses.
ii. Garage extension moved back to be in line with existing house front peirs.
iii. Areas of brickwork shown hatched on elevations.
iv. Velux windows raised so bottom of glass 1700mm above finished floor level. These windows will therefore not provide views down onto neighbouring properties whether opened or closed.

With reference to windows, it is intended on having all new powder coated aluminium windows throughout, however tis can be changed to UPVC is preferred.

ARUN DISTRICT COUNCIL AW/201/14/HH

We would also welcome the opportunity to speak at the committee meeting and trust that a time slot can be allocated for this.

Please let me know if you require any further details.

Regards,

Steve
