Ref: Planning Application AW/208/15/HH

We would, by this letter, like to register our objection to the proposed extension at "Wide Horizon" 11 Waters Edge, Aldwick.

We consider ourselves extremely fortunate indeed to enjoy views to the west of Aldwick Bay that reach from Pagham to Selsey. The proposed rear extension will completely obliterate that view and will instead be replaced by an extremely detailed view of the applicants living room and snug, something which we, and I'm sure the applicants, do not relish the prospect of, not to mention the mind-boggling thought that they in turn will have a direct view of us in our main bedroom – and who in their right mind would want that!

There is a certain irony here, we ourselves have current planning consent to extend our property at the rear, but having talked with the, then at the time, neighbours we decided not to proceed in the interests of neighbourly harmony and compromise and have instead applied more thought, and imagination to achieve what we wanted by reverting to a re-model instead of extending. So you see we now find ourselves in the identical position of our neighbours of 20-something months ago. As the saying goes, no good turn goes unpunished!

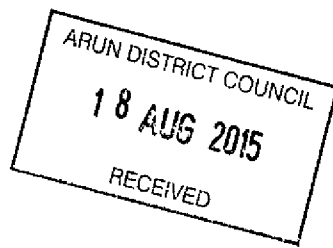

If permission were granted for this proposal we'd be faced with an impossible exercise in reason to justify why something that we've worked hard and saved for so long could so easily and quickly be taken away simply to afford someone else two extra rooms and a "snug".

I sincerely hope this can be resolved in just such an amicable and neighbourly fashion that we describe above. We also note that the applicant's house name is "Wide Horizon" – let's hope our wide horizon remains intact.

As an aside, we have no objections whatsoever to the rest of the application reference the extension atop of their existing extension although I note the comments made by another Waters Edge resident with reference to the finish etc.

Yours faithfully,

Stephen and Moira Leech
