Hi Ross,

First of all, thanks very much indeed for your time this morning, it was greatly appreciated by both Moira and I.

I've taken your advice and detailed below the reason for our objection to the proposed extension at 11 Waters Edge, Aldwick.

We strongly object to the extension on the grounds that it will intrude on our privacy given that the side elevation of the 2 story extension has a proposed fully glazed side elevation that overlooks into our main bedroom. With also a corresponding view that we will have directly into their living room. As you can see from the attached photograph, our house sits lower than our neighbours hence this view.

Finally, once again thanks very much for your time, patience and understanding!

Kindest Regards,

Stephen and Moira Leech
9 Waters Edge,
Aldwick.
