Dear Planners,

I object to the development of a single story extension on the front of 31, Queens Fields West.

This estate is a garden estate with open plan front gardens.

This extension in the front garden protrudes in front of the building line, and is out of character with the rest of the road.

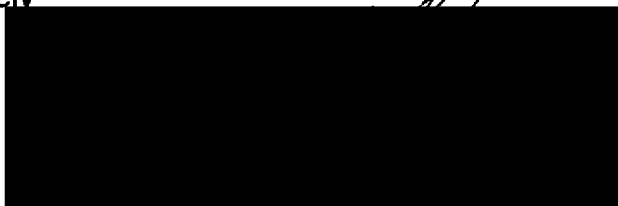

There is adequate space at the side and back of the building.

I had my mother, who suffered from dementia, and my mother-in-law who had a stroke, living with us at the same time. The extension on the back of our property was fine.

If plans are passed , this sets a precedent and the estate would lose the openness which was the original designers intention.

This would be unneighbourly and would not enhance the area which overlooks the village green.

Sincerely

M.A.Nichols
