To Whom it May concern,

It is with the great regret that I am seeing our local Pub being destroyed by Morrisons whom are currently ruining it.

I wish to object strongly to the conversion of this historic pub to a Mini supermarket by Morrisons and the loss of a public asset to the community, the points of the objection are pointed out below.

1;) The disruption to existing local business that have been established many years, namely Tudor News Agents and Mr Ashvin Patel. Morrisons will ruin this mans business and he is a local trader of some 20 years.

2;) Destruction of a historic building of some 200 years standing with continued use as a Public House, which has only fallen into its current state due to the high rents charged to recent landlords by enterprise public houses.

3;) The site of the Ship is linked to local history, namely Dark Lane and the Smugglers of that time, there is a secret tunnel linked through to the sea to the Ship which is a matter of historic interest.

4;) The site is on a blind corner, there is no pavement on the side of the Ship, building a convenience store on this site is madness as a serious accident will happen in no time on this blind corner.

5;) The Lorries delivering to Morrisons will block the road, and again an accident is likely to ensue.

6;) I like this pub, my friends like this pub, we do not want a Morrisons here.

Mr T R Hoad
