Development Control Committee

I send this urgent e-mail from holiday in Italy -- a country where people and government care about heritage.

We live in Aldwick: 7 Lodge Court PO21 4XP.

The various proposals by Morrisons to despoil this key part of our heritage must be opposed by any who care. The Ship Inn has been central to the character of our little area for the 32 years we have lived here -- and for long before that. Do our elected representatives care?

Please, please use your powers to stop their plans to despoil our residential area. Don't let them change the look of the pub. Don't let them build extensions. Don't let them reconfigure the car park. Think again about the long hours of off-licence sales they have requested.

Please save our local heritage.

Yours faithfully,

Dean Casperson
