Subject: Att Development Control Committee - AW/215/14/A

I am writing to strongly object to this planning by Morrisons to change an historic building which has retained the same trade for 200 years.

The ugly nature of the Morrisons signage will look horrific, out of place and destroy the lovely look of Aldwick Village. The illumination would be intrusive at night.

I have also objected in length by email to their other planning application AW/211/14/PL.

You will personally destroy the history, look, feel and value of our area and properties if you allow this to go ahead.
