Dear Sir/Madam,

The proposal to put illuminated signs on to this 200 year old building in a quiet, residential area is shocking. It will irreversibly change the appearance of this historic building and the village of Aldwick itself.

In addition, the light pollution will be intrusive to local residents with houses adjacent to both sides and immediately opposite the proposed site.

It will make an eyesore of the building by day and night.

Please consider the feelings of local residents who strongly oppose this application and give us a reason to vote you in again!

There should be no protruding Bus stop signs other than to replace those already in use for the Ship Inn.

Ship Inn Aldwick Street Bognor Regis

Thank you for your internet representation made on 1st September 2014 which has been recorded as '**an objection**' with the comments as follows:

Planning Application AW/215/14/A

I wish to object to this application as follows:

At nearby Rose Green there is a large comprehensive shopping facility comprising both large and smaller independent retailers. Illuminated signage may be appropriate in that location. But Morrisons proposed signage is wholly inappropriate for the village location as regards the design, layout, and illumination.

The design and layout of signage is always a matter of subjective taste, but when it is intended to be illuminated other aspects should be considered.

At present none of the nearby shops have any illuminated signage at all, as befits a village setting. But the proposed signage, whether internally lit or by trough or spot lighting will dramatically alter the character and appearance of the area forever. Apart from the short summer season, during the rest of the year the ever-present moisture in the air from the sea will cause light halation and magnify the light emissions tenfold.

It is a given that the store will be brightly lit internally during opening hours and, as the plans show plenty of clear window areas, that will be sufficient to show that it is there and open for business.

The retention of the existing Ship signage is obviously both a marketing ploy, and an unsuccessful attempt by Morrisons to ingratiate itself with the local community.

I therefore request that no illuminated signage be permitted at this historic site and ask for the proposed plans be rejected.

Your views will be considered before the application is determined and I shall write to inform you of any decision made.

Please be aware that if the application is to be determined by the Council's Development Control committee and your letter has been received at a late stage after the Agenda has been published you will not receive a separate letter notifying you of the date of the meeting and procedures for public speaking.
