Good Morning

With reference to your email below, unfortunately we are unable to accept the sketch plan and additional information in the current format, please could you send them as a PDF file. The measurements for each tree are required in metres, and should be the proposed height and spread after the crown reductions.

Kind Regards

Nicky Moore

Good morning, please find attached sketch of trees to be cut also an estimated Height of each tree , before cutting . I would request that each tree is crowned by 2.5 meters I am concerned because the large field maple is on a bank and looks like it's starting to lean More towards our bungalow, as it's getting very top heavy.

I hope that this meet all your requirements
Mrs Angela Richards
