

NOTES:

1. Do not scale this drawing. Use figured dimensions only, except for Planning purposes.
2. All dimensions must be checked on site by the contractor prior to commencement of work.
3. All construction details are indicative and are to be checked and confirmed on site and any divergence's are to be agreed with the Contract Administrator.

A black and white architectural line drawing of a building facade. The drawing shows a rectangular structure with a gabled roof section on the right side. On the left side of the main rectangular section, there is a small, vertically oriented rectangular opening, possibly a window or door. The drawing is composed of simple black lines on a white background, with some faint, illegible text visible in the upper right corner.

This architectural drawing shows a side elevation of a building. On the left, a steep gabled roof is depicted. Below the roofline, there is a chimney. The main body of the building is a rectangular structure. On the right side of this structure, there is a door with a small window above it. A horizontal line, possibly a window sill or a decorative element, runs across the middle of the building's facade. The drawing is a simple line sketch, likely a preliminary design or a conceptual drawing.

This architectural drawing shows a section of a building facade. It features a vertical line and a horizontal line intersecting. To the right, there is a window with a frame. The drawing is a simple line sketch.
