Enc

BEECH T2 on plan. Red marking is correct position.

Lift crown to height of 2.5 metres above ground level.

Reduce crown by cutting lateral branches by up to 2.5 metres

This work will improve health and appearance of tree, which is at present damaging shed roof and rhododendron and allow more light.

HOLM OAKS (row of seven)

Lift crowns to height of 2.5 meters above ground level.
(at present damaging trellis and fence).

Reduce crowns by cutting lateral branches by up to 2.5 meters. This will allow more light and improve shape, appearance and health of trees.

HOLM OAK NO 8

Remove dead bough and branches.

Reduce side laterals by up to 2.5 metres to give more balanced shape and allow more light for health of other nearby shrubs.
