AW/237/11/DOC

From: Karen Garner**Sent:** 15 November 2011 12:38**To:** [REDACTED]**Subject:** Discharge of Condition 4 on Planning Application AW/252/10

Dear Mr Peters,

With regard to our telephone conversation today, I can confirm that the Application Reference Number AW/237/11/DOC to discharge condition 4 of AW/252/10 is complete and registered as valid.

The case officer, Miss Rawlins is dealing with this.

Please accept our apologies as the documentation requested in the original discharge request AW/222/11/DOC has been duplicated and, instead of making the file complete, another file was created in error. However, the new file is the file which we are working from.

Please ignore any reference to AW/222/11/DOC as this file has now been recorded as incomplete for the reason of 'duplicate file' with no further action.

I hope this clarifies the situation.

Kind regards,

Karen Garner.

Hullo both

We have a discharge of condition application (above ref) the condition no. 4 relates to the requirement for a method statement regarding the storage of plant etc to preserve the health of trees.

You do not seem to have been notified, therefore I would be grateful if you could have a very quick look at this one and get back to us with your views.

Regards

Eve
