Subject: One Stop in Aldwick AW/237/19/PL

This message is to give my strong opposition to the One Stop proposal for the Ship Inn.

It has never been suitable as a convenience store and should remain a pub and restaurant but the biggest problem with it being a convenience store is the inevitable surge in delivery vehicles.

I have seen the requirements of One Stop and it indicates a very dangerous situation at an already difficult highway situation. I live very close to the Ship and have first hand experience of the hazards. The amount of lorries negotiating a very tricky access would be totally unacceptable.
