Subject: old Ship Inn building, Aldwick Street, Aldwick

Dear Mr Davis, The residents of Aldwick are concerned about the many heavy articulated lorries that One Stop are proposing to use in Planning Application AW/237/19/PL. This is already a busy and dangerous road and these heavy lorries backing into the small car park at the side of the building will cause even more danger. The sheer number of deliveries proposed during the week are of particular concern.

I hope that Arun District Council will thoroughly investigate their request, consider the safety aspects and make Aldwick a safer place for residents. Vivienne Salmon
