

Dear Mr Davis,

I'm writing to object about the possibility of yet another supermarket opening on the site of the former Ship Inn at Aldwick.

Two other supermarkets have tried and failed. The local residents, myself and my husband included do not want or need another supermarket.

The impact that it did create and would again is a health and safety issue. The road is very narrow, for large delivery lorries, and has a very small car park. The site is not suitable, it has and would be a danger to residents and the general public.

We do not support this proposal,

Yours sincerely

Su Cloud
