Subject: Planning Number AW/237/19/PL

Dear Mr Davis, I would like to express my objection to the above numbered planning application, regarding the former Ship Inn in Aldwick.

This is sited on a very busy, narrow road with no pavement outside the building. The two convenience stores were not popular and there is nothing to suggest that the local community are going to support any other convenience store being proposed. The extra traffic chaos that these thirty five deliveries will cause is not acceptable. It is a serious accident waiting to happen situation. The noise implication for local residents is unacceptable.

Another convenience store on this site is NOT needed or wanted by the local residents, and most will not support it.

Regards, Sheila Stocker
