Subject: Application AW/237/19/PL Former Ship Inn

Dear Mr Davis

I am surprised to learn of the application for another convenience store, since two other experienced companies, Morrisons and My Local, have already failed. However, their failure and my surprise are not the issue - it is that there is just not enough space in the area to safely accommodate the traffic created by such a project, for customers, deliveries, local residents or passers by.

I object to the application.

Yours sincerely,

Norman Lilley
