Dear Mr Davis ,

Regards the above application to once again return The Ship Aldwick Street.

I will never cease to be amazed at how Retailers seem to think a convenience Store at this location is a good idea, previous attempts have failed mainly because it is not needed and residents will not support it. The last opening of a Store was boycotted which drew the attention of local TV and radio stations.

The building would be better served by making it a centre for Aldwick not only as a Pub/Restaurant but an all inclusive community meeting place.

Such a hub would be beneficial to the community.

The road is narrow can not accomodate large delivery lorries without distrupction and safety issues to the general public . The planning permission should be refused on these grounds and many more to numerous to mention.

David Cloud
