Subject: RE: AW/237/19/PL The Former Ship Inn, Aldwick

Dear Daniel and Simon,

It was disappointing to hear that your committee voted to defer the application so that an independent Road Safety Audit of the proposal be prepared, together with tracking details showing two refuse collection vehicles travelling in opposite directions past the premises.

With regard to the latter point, as discussed with Daniel via our telephone conversation shortly prior to the receipt of the below email, it is extremely unlikely that two refuse vehicles would pass in opposite directions. It is normal that refuse vehicles have a set collection 'round', which would mean that they are only ever travelling in a single direction and by implication there would not have a situation of two vehicles on the same road, and therefore never with vehicles passing in opposite directions.

Nevertheless, my client has reviewed this internally within their organisation, and are now in the process of instructing an independent organisation to prepare the requested Road Safety Audit. Please bear with us whilst the report is being prepared. We will be in touch again, once this document is available.

Thanks & regards,

Pierre Langlois BSc(Hons) MRICS

Mr Langlois,

Further to our earlier conversation I write to confirm that at DC Committee yesterday the Councillors voted to defer the application so that an independent Road Safety Audit of the proposal be prepared. Tracking details to show what would happen if two refuse collection vehicles were travelling in opposite directions were also discussed.

You may wish to view the debate on the item which can be seen on the following link. The item is the first on the agenda and lasts for approximately 1 hour.
