

Dear Members

Planning Application: AW/237/19/PL

Can I please draw your attention to the recent report submitted by the Friends of the Ship Inn and The Aldwick Community Society (copy attached for ease of reference).

I urge members to consider the issues raised in this report very carefully. It is a professionally written report, of a particularly high standard, and raises five key points:

1. The reason given for the Application is flawed
2. The vehicle tracking (swept path) analysis submitted is flawed
3. Road widths have not been fully considered
4. The delivery process has not been fully considered and is unsafe
5. The original delivery conditions were imposed for valid reasons

I have read this report and, for the reasons outlined within it, I object to this planning application. I urge the committee to refuse this application.

Yours sincerely

Cllr. Tony Dixon
Ward Member - Aldwick East
