

Limestone

Limestone's elegance and warmth suits both traditional and contemporary settings. The choice of three calming colours allows you to create the perfect environment.

Cut to standard thicknesses for ease of installation whilst retaining its natural strength and durability.

Omega

Simple modern lines blend with every environment and develop a mature character over time. Omega Paving is extremely popular, partly due to the range of thicknesses, making it suitable for most projects.

Half Omega and Bishops Hat make finishing edges easier.

Team with complementary kerbs, such as the High or Drivestyle Kerb.
