FAO Mrs S.Honney-Bayes

Planning Application AW/243/12/TC

Dear Mrs Honney-Bayes

Thank you for your letter via email of 21st September enquiring /seeking further information on the Application we have made regarding tree work at our address.

Following on from the original permission of AW/165/09/TC, the intention here is to effectively 'pollard' trees in the rear garden to keep some control of their expansion. Apart from the request to remove the Eucalyptus, all the remaining listed trees will need regular attention to follow the above practise as in 2009.

From the list sent to you therefore, all but the Eucalyptus are subject to the pollarding request.;

Although the recommended trimming amount will vary between species, **all will be less than 50cm/20"** and most less than that, dependant upon annual growth ie.- trees such as the Yew and Chamaecyparis, etc are or course really trimmed as hedges by only an inch or two. Trees T12 and T13 (Silver Birch) in the front garden are not part of this application.

For this quite small garden (50ft/15M square), the requirements here are onerous in my view (due to the Conservation Area status) but as a layman I can only follow your/government rulings and I know your Officers are in the same position!.

I do hope this will be sufficient for your needs and that you will progress the Application soon as the season of growth is upon us.

Will you kindly ring me on 01243 265733 if you still have any problems.

Yours sincerely

Ian Jefferies
