Good Afternoon Amber,

I have just reviewed the submitted plans. Please take this email as a formal response.

The LHA raises no concerns over the proposed Vehicle Crossover (VCO) Extension to 4.6 metres as per the submitted plans.

### Conclusion

The LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 109), and that there are no transport grounds to resist the proposal.

*The LHA advises the LPA that if they are mindful to permit the above application than to attach the following conditions and informative:*

### *Access*

The use of the parking area shall not commence until the vehicular access serving the development has been constructed in accordance with the approved site plan.

Reason: In the interests of road safety.

### *Vehicle Crossover – Minor Highway Works*

The Local Highways Authority (LHA) advises the applicant that in addition to obtaining planning permission that they must also obtain formal approval from the highway authority to carry out the site access works on the public highway. The granting of planning permission does not guarantee the permission of a Vehicle Crossover (VCO) licence.

Please see the following link on details pertaining to the licence application process:
