

WEST SUSSEX COUNTY COUNCIL CONSULTATION

TO:	Arun District Council FAO: Susan Haley
FROM:	Highways, WSCC
DATE:	18/11/2025
LOCATION:	9 Aigburth Avenue, Aldwick, PO21 3DA
SUBJECT:	AW/253/25/HH Extension of existing vehicle cross over.
DATE OF SITE VISIT:	N/A
RECOMMENDATION:	Advice
S106 CONTRIBUTION TOTAL:	N/A

This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

This application seeks the extension of an existing vehicle crossover. The site is located on Aigburth Avenue, an unclassified road subject to a speed restriction of 30 mph.

The proposals seek to extend an existing vehicle crossover by 2.4m. The applicant states that this is to match the width of the existing driveway with the dropped kerb, and improve access into and out of the site. The proposed works will be subject to a licence obtained from WSCC, and constructed to a specification agreed with a WSCC Highway Area Engineer.

In summary, the LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 116), and that there are no transport grounds to resist the proposal.

If the LPA are minded to approve the application, the following informative should be applied:

Vehicle Crossover – Minor Highway Works

The applicant is advised that in addition to obtaining planning permission that they must also obtain formal approval from the highway authority to carry out the site access works on the public highway. The granting of planning permission does not guarantee that a vehicle crossover licence shall be granted because the highway license process considers wider factors than are considered by the Highway Authority at planning stage.

Additional information about the licence application process can be found at the following web page:
