Dear Arun Planning,

I enclose an application form for consent to have work undertaken on our silver birch tree. We are keen to have the work done whilst the tree is dormant in order to minimise the risk to the tree. In order to maintain the health of the tree we make such an application every couple of years.

We seek to have the tree pruned only to the previous pruning points. I trust that this will be acceptable and we can advise the Tree Surgeon to proceed.

Yours sincerely,

Graham Clark
