This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

West Sussex County Council was consulted previously on Highway Matters for a similar proposal at this location under planning application AW/215/14/A. No objection was raised from the Highways Authority. This application was granted partial approval by the LPA however adverts 1, 4 and 5 of the proposal were refused consent by the LPA.

The proposed illuminated signage has luminance levels of 250 cd/m². This is below the recommendations made by the Institute of Lighting Engineers for illuminated signs in a location such as Aldwick.

None of the signage proposed within this application are proposed in location that will interfere or overhang the publically maintained highway.

No anticipated highway safety concerns will be raised to the proposed signage.
