Mr chapman,

Thank you for the additional information.

Can you confirm the height at the eaves of the proposed extension, measured externally from the natural ground level, in metres?

Thank you,

Mrs Johnson

Good Afternoon Mr Johnson

I am sorry i have certainly made a mistake looking at my copies

The outer lower building will be built in brick 1 metre from ground level & blocks internally covered with plaster.

The Conservatory will be 4 metres wide & 6 metres long externally

There will be a glass roof 3 metres high.

The existing conservatory stands at 4 metres x 4 metres externally with a 1 metre brick wall allowing room for double french doors.

Hope this helps

Regards

Andy Chapman

Mr Chapman,

I am currently working on validating the application for a single storey rear extension at 17 Balliol Close, Aldwick.

Please provide information on the materials proposed for the extension.

Also, in Part 4 of the application, please give all measurements in metres, not feet or centimetres.

If you have any questions, please let me know.
