Dear Kathryn,

The existing wall height is mainly between 75 and 80 cm (it varies due to its rough and dilapidated condition, which can be seen in the pictures supplied with the application). There is a small section at one end that goes up to 150 cm (it's about 10% of the entire length of the wall) but we do not intend to mimic that. The height of the entire replacement wall will match the lower height of 75-80 cm.

Best regards,

Chris Palmer.

Dear Mr Palmer,

Your application has been passed on to myself for determination. I have noted within your application you make reference to the proposed wall being equal to, or not exceeding the height of the original flint wall. I would be grateful if you would provide me with details of the height of the existing wall to include within my report.

Many thanks,

Kathryn
