Biodiversity Enhancement Statement

Property address 213 Aldwick Road, Bognor Regis, West Sussex, PO21 3QG

The area proposed for the new single storey extension is currently a paved patio and old concrete garage base, which have no current biodiversity.

During construction all efforts will be made to minimise any damage to surrounding grass and shrubs, therefore reducing and impact on the environment.

The clients are also considering placing solar panels on the existing roof to reduce the properties carbon footprint.

Regards

Lee Smith
