Objection to the above proposal from Mrs Jean Powell 31 Colts Bay

I was dismayed to read about the proposed planning application for the extension to the rear of 229 Manor Way. The height and close proximity of the proposed building will undoubtedly invade the privacy of and affect the light to my immediate neighbours property in Colts Bay (No 29). They love their house and garden so this would have an adverse effect on their lives.

Colts Bay is a small, quiet, exclusive estate and as a resident (42 years at No 31) and a shareholder, I feel this proposed extension would be an unacceptable intrusion for my neighbours and for the estate.

Yours faithfully

Jean Powell
