Dear Simon and Mark,

Please find attached the updated tree survey package which has been specifically prepared to address the detailed comments on the proposals in relation to trees.

The following information has been provided:

- The tree survey has been updated to overlay the new topographical survey on both the tree constraints plan and the tree retention and protection plan.
- Sections and details which demonstrate the existing levels and sections through areas of proposed no-dig construction with indicative finished floor levels for the proposed dwelling houses where applicable.

We trust this information is sufficient to withdraw the objection and that the decision can now be issued.

Are we able to agree an extension of time to Friday 15th March 2019 to allow final comments and for the officer report to be completed ?

We look forward to receiving your feedback shortly.

Best regards,
Kerry
