Dear Bob

Thank you for getting me over to take a look at the following trees around the Craigweil estate.

I report on the follow

T1: Maple tree outside No. 33 Kingsway - I recommend the lower branches over the access drive to 33 are pruned back by approximately 2.5mtrs

T2: Large Macrocarpa within the shrubbery outside No. 10 Kingsway - Prune back/crown lift southerly side over the access road to allow 5mtrs head clearance.

T3: Acer Crimson King outside No. 30 Kingsway – Crown lift to create head clearance of approximately 2 to 2.5mtrs

T4: Wild Plum tree growing out over the verge from the garden of No. 41 Kingsway – Prune back the overhang, on the verge side of the tree by removing approximately 2.5mtrs of the southerly spread.

T5: Variegated Acer outside No. 44 Kingsway - Prune back the lateral spread where the tree grows out over the garden of No. 44 by approximately 1.5mtrs.

The above works are mainly recommended for general maintenance reasons (the access into properties and along the estate roads). Please don't hesitate to get in touch if you have any questions.
