T1Oak. Location – small rear garden. Reduce crown overall by pruning 1m approx. of growth back to the previous pruning points. This tree is now overhanging the driveway/access to other properties in Craigweil Manor and is subject to being hit by passing vans, lorries and dust carts.

T2Yew. Location – small rear garden. Restore and improve crown balance of yew by removing 0.5m from the branches overhanging the lawn and 1m from the branches comprising the north & east sector (overhanging private access road to properties in Craigweil Manor).

T3Sycamore. Location – small rear garden. Restore shape and balance to crown. Reduce by approximately 2 metres overall to previous pruning points. This tree has grown significantly since it was last pruned.

All three trees are in close proximity to each other and their branches are now touching. In conjunction they cause significant shading to the majority of the garden.

T4For information only - Is a very large Sycamore. This tree belongs to the neighbouring property of Craigweil Manor flats. It shown on the plan to show its proximity to T1, T2 and T3. Its location against the southern boundary and in conjunction to with T1, T2 and T3 causes significant shading to the rear garden and the branches on the north side are overhanging our property. There are also two further sycamores near the eastern boundary of 16 Craigweil Manor.
