

1. Location and Description of works

- T1 Oak. Location – small rear garden. Reduce the oak overall by pruning 1m approx. of growth back to the previous pruning points.
- T2 Yew. Location – small rear garden. Restore and improve crown balance of yew by removing 0.5m from the branches overhanging the lawn and 1m from the branches comprising the north & east sector (overhanging private access road to properties in Craigweil Manor).
- T3 Sycamore. Location – small rear garden. Restore shape and balance to crown. Reduce by approximately 2 metres overall to previous pruning points. This tree has grown significantly since it was last pruned.
- All three trees are in close proximity to each other and their branches are now touching. In conjunction they cause significant shading to the majority of the garden.
- T4 Very large Sycamore. This tree belongs to the neighbouring property of Craigweil Manor flats. It shown on the plan to show its proximity to T1, T2 and T3. Its location in conjunction to with T1, T2 and T3 causes significant shading to the rear garden and the branches on the north side are overhanging our property.
