4 In pursuance of their powers under this Act and these Regulations the Council **GRANT** consent for the operations to be carried out in accordance with the application and plan and subject to the conditions specified.

The Council certify that they are satisfied that the conditions specified are in the interests of good forestry or in the case of trees other than those comprised in woodlands, that the trees have an outstanding or special amenity value.

1 The works hereby approved shall involve;

T1 Lime (*Tilia Europaea*) - prune to provide a balanced crown and ground clearance of 2m all around the canopy. Retain the trees 'vase' shaped character by removing only those branches of 40mm diameter or less.

T2 White Poplar (*Populus Alba*) - Removal of the three (3) lowest limbs and suckers from the trunk.

T3 Caucasian Wingnut (*Pterocarya fraxinifolia*) - 1m crown reduction and reshaping.

T5 Golden Leylandii (*Cupressocyparis*) - Fell to ground level.

All works should be carried out in accordance with BS3998: 2010 Recommendations for Tree Work.

Reason: In order to ensure a satisfactory standard of tree surgery in the interests of amenity.

2 The burning of materials obtained by site clearance or from any other source shall not take place within 6 metres of the furthest extent of the canopy of any tree or group of trees to be retained on the site or on land adjoining.

Reason: To protect trees and vegetation from fire damage in the interests of the visual amenities of the locality.

3 The work hereby approved shall be undertaken under the supervision of the Local Planning Authority who shall be notified in writing, not less than 7 days before the work commences.

Reason: In order to ensure a satisfactory standard of tree surgery in the interests of amenity.

INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.

INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0845 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.
