West-Sussex

Dear Sirs

Planning Application AW/285/12.

We, the Residents Association, have been asked by our members to object in the strongest possible terms to the above application on the following grounds

- a) This is a garden estate with green verges and it is understood that the verge outside of the front ledge of the bungalow will be used for extra garden for the applicant this will seriously detract from the garden features of the estate and is out of character.
- b) It will set a precedence and others will follow. Some have already done so and have been forced to remove fences in similar circumstances.
- c) It is unneighbourly in as much as it will impose on the premises next door, with their clear view to the street scene.
- d) This applicant has already built in his garden and it is understood by neighbours that further building taking up ~~and~~ outdoor

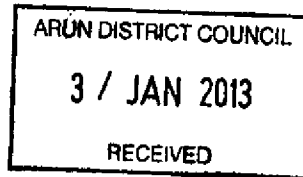

Space is planned.

For all of these reasons we ask that you refuse
this application.

Yours faithfully
on behalf of W.M.R.A.

Dear Sir

Re: AW/285/12 - 33 Churchill Avenue - West Meads

I hope I am not too late to get this letter of opposition to this Planning Application in. I have been away and have just found out about it.

If this application was to go ahead it would be awful for this West Meads Estate which is open planned. There are so many areas on this estate that have lovely green verges next to the pavement/pathways. If this was to go ahead, it will set an example of what could happen to the majority of homes and I know a lot of people who would love to extend their property in this fashion.

We are constantly having to challenge developers for the green areas on this estate to keep it in the beautiful way it is at present.

Please reject this application for the protection of our green areas on West Meads.

Yours faithfully
