T18 Quercus	2 m reduction
T19 Macrocarpa	3 m reduction
T20-22 Betula	2 m reduction
T23 Acer	3 m reduction
T24 Poplar Lombardy	4 m reduction

The reason for suggesting the above work is to maintain the size of the trees and to shape some back to individuals. Also to check for dead and diseased wood whilst not affecting the amenity value of this large group of trees. As far as I'm aware no work has been carried out for approximately 10 years .
