Subject: Application for works to trees subject to a TPO

Your reference : AW/288/20/T

Dear Nicola – I refer to your letter of the 22nd October and as you appreciate it is somewhat difficult for me to assess the height of the trees in their current state without appropriate instruments but what I am looking to is a) as far as the oak tree is concerned – reduction of present levels of crown to 12 metres i.e. approx. to what it was last time we had a reduction some 8/10 years ago with a spread of 10 metres and (b) as to the sweet chestnut – crown reduction to 8 metres and spread to 6 1/2 metres again as back to previous cut. I hope this is acceptable to you and no doubt you will advise in due course.
