Subject: New build

I am writing to object to a driveway to a build I have seen at the rear of the 276 Aldwick Road. PO21 3 QH. AW/28/19/PL my concern is that it is a nice beauty spot with not much parking as it is, Myself and many others like to go there and relax and also take children and dogs there because it is a nice quite spot. It is also nice to have picnics there in the car. There is also lots of wild birds that live in the trees there. I think this will be spoilt with the lose of the parking and also having a driveway to a house. Would it not be possible for the drive to be the other side onto the Aldwick road. Surely this would be better and having the back garden at the pond side it would be quieter too having the back garden that side. They would also be able to appreciate the wild birds in their garden. I do hope you reconsider this and think carefully about it.

Thank you

Mrs Carole Hillier
