Dear Mark,

Please see revised/supplementary plans attached submitted to overcome your objections. They have not followed my suggestion of reducing the size of the house.

Planning.Responses – Please see action sheet.

Kind Regards

Hi Simon,

Further to the Tree Officer comments on the above application I attach the additional drawings prepared by Lizard Landscape to address tree protection issues. Please can you advise if this is sufficient to overcome the tree officer's concerns with this project.

If this is the case can you confirm we are solely waiting on the signed and completed legal agreement in terms of the unilateral undertaking for the SPA prior to a decision being issued.

Kind regards,
Natalie
