Nicola,

Further to your letter of 7th February and our earlier telephone conversation here are my estimates of the tree sizes post pruning -

- 1 * Norwegian Maple - 6M High * 3.5M Spread (Essentially back to the pruning points approved in 2017)
- 1 * Silver Birch - 7M High * 3.5M Spread (I dont believe this Tree has had any maintenance to date)

Please let me know if you require anything further.

Kind regards
Bob Gale
