Subject: Prior Notification Of Works To Tree(s) In A Conservation Area - AW/297/25/TC

Reference: **AW/297/25/TC**

Proposal: Reduce height of crown by 3m back to previous pruning cuts leaving final height and spread of 20m x 6m to 1no. poplar tree (T1).

Location: 93 The Fairway, Aldwick, PO21 4EW

I visited the above location on 4th February 2025 to determine this Town & Country Planning Act 1990 (as amended) s211 Notice.

I am satisfied this work will not result in harm to the character or appearance of the conservation area, if undertaken to a high standard and at the right time.

I raise **No Objection** and see no reason to make a Tree Preservation Order.

INFORMATIVE: Hard pruning creates numerous and/or large wounds, incurring a physiological stress which may affect long-term health and vitality. The optimum time to prune a poplar tree is winter (mid). They are prone to bleeding.

Mark Warwick
